OUR HISTORY

My name is Natalie Tsybulska-Lainchbury, I am originally from the beautiful city of Lviv in Ukraine, currently residing in Antalya, Turkey.

Together with my husband (who is English also living in Turkey) I am a partner of the golf business "Golf Mad Travel & Events".

The company specializes in golf events, golf travel and golf lessons.

I am an amateur golfer who still has so much to learn in golf despite the fact that my husband himself is a British PGA Advanced Golf Professional.

So you can understand that golf pressure in our house could be sometimes enormous:) In one word, there was no way out of golf for me, although before moving to my partner I had absolutely no idea what golf was and moreover, that I could become hooked up on it.

For around of 6 years I was heavily involved in Golf Mad Travel & Events organizing tournaments, carrying out the golf bookings as well as strongly developing the image of the company in both west and east Europe. To cut the long story short, the Golf Mad journey was and still is incredibly exciting as new horizons are always opening with new projects and challenges, not to mention the variety of people I was and am meeting on the daily basis. These were the People, our Golfers and Friends who were pushing me into the world of golf saying, "This will be a completely different stage of your life with fantastic emotions. Enjoy it!"

So, golf became my lifestyle without even playing it.

As a young and I like to think stylish independent woman, when I started playing golf, I noticed it was not always easy to find golf outfits for ladies which projected the image I saw for myself.

I wanted stylish, classy, feminine and sporty all at the same time. World famous brands are beautifully crafted and I love the quality but the designs are all very similar and can be seen everywhere and are worn by everyone. What I wanted was golf clothes expressing my individuality and my new-found crazy golf spirit.

The idea had been growing in my head for a long time. With Golf Mad we had been creating our own golf clothing range for our tournaments to give to our participants both men and women.

This however, was mostly conceived and logoed on

existing good quality golf clothes following the main trends of the leading sports clothing companies.

But for me this was never exciting enough.

So, the decision was made – and I established my own Company and Brand WINGS & SWINGS as a Ladies' Golf Clothing Line.

Living in Turkey, a country that is world renowned for its textiles and clothing manufacturing facilities, it was an easy place to start.

The challenge ahead is exciting, and I hope our designs reflect how you want to appear and feel on the golf course. We've incorporated traditional with modern. The clothes must be comfortable and practical. They should enhance the beauty of a woman and portray her individuality and dare I say sexiness.

Through Wings & Swings we are stretching the boundaries of Ladies' Golf Clothing to achieve this. I do believe the bright future is ahead of us Ladies, so let's go for it!

Starting playing golf, I noticed that it is not always so easy to find the corresponding golf outfits for ladies – stylish, feminine and sporty one at the same time which is an important and unique showcasing of the personality. World famous brands are incredible and I love their golf clothes but this you can find everywhere. What about golf clothes showing your particular individuality and your own crazy golf spirit?

So this idea was growing in my head for a long time. For my husband's Company we have already the vast experience of creating our own golf clothes both for men and women as part of our Golf Tournament Events – here however, we were mostly basing on the idea of good quality sporty golf clothes following the main golf trends of the leading sport clothes companies. I found that not being enough for me. In addition, here in Turkey, the country that is world famous for the fantastic quality of its textile, the world is your oyster!

So the decision was made – and I created my very own Company and Brand WINGS & SWINGS as mainly a Ladies' Golf Clothes Line.

We are growing and developing. Many exciting challenges are in front of us. This makes our Life really incredibly juicy and somehow spicy.

I do believe the bright future is ahead of us Ladies, so let's go for it!
